

E-Learning tools and Multimedia Learning Packages

E-Learning tools and Multimedia Learning Packages is the fifth training programme conducted by the Faculty and Staff Development centre, CET. Department of Business Administration, College of Engineering is coordinating the programme for CET. New technologies can strongly help in education and the use of technology to facilitate learning is accepted to be of value across educational institutions. E-learning applications are the most promising innovations to improve teaching and learning with the help of modern information and communication technology. The training is expected to familiarize the participants with the various e-learning applications including web-based learning, computer based learning, virtual education opportunities and digital collaboration via internet, intranet/extranet, audio or video tape, satellite TV, and CD-ROM.

OBJECTIVES

- To gain knowledge about the application of e-learning tools and methodologies and facilitate online learning experience.
- To emphasize the digitalization and progression towards online teaching and learning.
- To foster greater faculty- student interaction through multiple learning styles using a variety of delivery methods.
- To encourage the acquisition of new skills and knowledge that is needed for personal and professional development and for active participation in an information-driven society.
- To explore the application of multimedia in improving the quality of e-learning.

PARTICIPANTS

Faculty and Librarians in Government Engineering Colleges and Polytechnic Institutions under Directorate of Technical Education, Government of Kerala.

TOPICS COVERED

- Concept of e-learning and various e-learning tools.
- Open source learning tools and e-tutoring.
- Computer supported collaborative learning.
- Digital library.
- Multimedia technologies for e-learning.
- Setting up digital class room.
